WHAT IS FROM THE WAREHOUSE ?

Come by and see for yourself - and bring this flyer in and get AN EXTRA \$10 OFF PURCHASES OVER \$75.

We are an online retailer that sells millions of dollars of consumer products on sites such as Amazon.com. Not all of our merchandise, much of which is liquidated product and returns, meets our stringent quality standards for online sales, so we put it in our warehouse store - where you can buy it for huge discounts. Products are generally new - just box damage or open box.

Our prices are typically half or less of the lowest online retail price - with the exception of TVs and some electronics which are priced at 20 - 25% below market. We cover all store categories, and our product is always changing as we have new truckloads coming in all the time. We also have additional clearance sales every day to make space for new products coming in.
